

April 16, 1985

Ms. Sultana N. Nahar
Dept. of Physics, WSU
Detroit, Michigan 48202

Dear Ms. Nahar:

I am most happy to inform you that the Selection Committee has authorized me to offer you a Thomas C. Rumble University Graduate Fellowship for the 1985-86 academic year. The Fellowship stipend will be \$5,000 plus full tuition coverage up to a maximum of 12 graduate credit hours per semester. The University Graduate Fellowship also offers a housing allowance (\$150.00 per month maximum) for students residing in designated University Housing and the option for inclusion in the University Health Insurance Program.

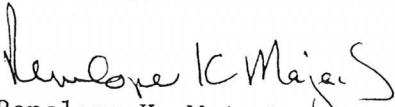

Although you are probably aware of the provisions of the University Graduate Fellowship Program, please note that the award is being made with the following stipulations: (1) the recipient must be admitted to a Wayne State University doctoral program prior to beginning Fellowship tenure; (2) the recipient must be engaged in a full-time course of study at Wayne State University and must register for at least 8 but no more than 16 hours of graduate credit each semester; (3) the recipient may not hold any other fellowship, graduate assistantship, or internship concurrently; (4) the recipient may not hold salaried or full-time employment either within or outside the University; (5) the recipient may not hold part-time employment within the University without the prior written consent of the Graduate School; and (6) the recipient must maintain satisfactory progress towards their doctoral degree.

Your University Fellowship award will commence in the Fall Semester 1985 and will continue through the Winter Semester 1986. Your housing allowance will commence on September 1, 1985 and will continue through August 31, 1986, and your insurance coverage will commence on September 1, 1985 and will continue through August 31, 1986, should you choose to accept them.

Please notify the Graduate School, Room 352 Mackenzie Hall, in writing no later than May 24, 1985, whether or not you intend to accept this award. There are many qualified alternates whom we would like to assist if you are unable to accept the award. The Graduate School has attached a packet of information on your stipend, registrations, housing, and insurance.

Allow me to offer you my personal congratulations upon having been selected to receive this award and to wish you continued success in your studies.

Sincerely,

Penelope K. Majeske, Ph.D.

Special Assistant to the Provost
