*Statement of*

Alburuj Razzaq Rahman

Sultana Nurun Nahar (mother)

She is a great scientist and mother. She is always supporting me and is an inspiration for me to do well in life. She has helped me make important life decisions. Every day, my mother inquires about my day and always keeps up with my progress in school. I have always felt free to ask questions to my mother ranging from science to life. She guides me everyday and has been the largest influence on my outlook on life.
