To Whom It May Concern,

I am a current science and foreign language teacher at the Metro Early College High School, and I have taught high school science and Chinese courses for the last five years, and have served as the advisor for student advisories for the four years. I am Alburuj Rahman's advisor during his senior year.

The combination of strong work ethic, steely determination, great leadership and team working skills found in Alburuj is truly unique. Alburuj has led several group projects this year, and successfully performed the duties as the project manager, and made tremendous contribution to the whole advisory. The projects Alburuj led were presented in several statewide and regional conferences.

Please feel free to contact me directly if you have any questions or concerns, and thank your for your consideration.

Sincerely yours,
