All Day Teacher Workshops

Discover how you can use the Wexner Center as a primary source for your teaching. Designed for K-12 teachers in all subject areas, these day-long workshops introduce the art on view at the Wexner Center and provide insights into many issues of contemporary art, culture, and society. On **Saturday, December 1**, independent filmmaker Austin Allen leads *Photographing Place*, a workshop on documentary production. On **Saturday, December 8**, join Jacqueline Chanda, Chair of the Division of Art Education and Art History at the University of North Texas, for *WESTward Bound*. Taking Franz West's *2Topia* installation as a point of departure, you'll journey through West Africa to examine the cultural artifacts of this region and their influence on our everyday lives.

Advance registration is required for all courses and workshops. To register for programs, to receive our 2001-02 Teacher and School Programs brochure, or to find out how you can take ArtStart workshops for graduate credit, please call Rina Kundu at 614 688-3986.

Programs for teachers presented with support from **Ameritech/SBC**.
