Ref. Additional fund for the three annual Sultana N. Nahar Prizes for the best research publications in three divisions of Physics in Egyptian Journal of Physics (EJP)

Dear Professor El Sherbini,

Assalamu alaikum.

Per discussion with EJP Treasurer Prof. Nagdy of Helwan University and you in December 2016, I am increasing the amount of the endowment fund for the above three annual prizes in recognition for the best research publications in Egyptian Journal of Physics. Prof Nagdy currently has EGP 8775 which is equal to \$500 (converted at the rate of 1 USD = 17.55 EGP) for the endowment. To make the total amount of the endowment to EGP 25000, I will give additional EGP 16225 to the existing amount when we meet in the morning of April 15, 2018. Prof. Nagdy will then apply to the Ministry of Higher Education and Scientific Research for the approval of the prizes.

It will be good to announce the three annual prizes for the best research publications in EJP to the participants of the "Egyptian Physicists Workshop" to be held in Cairo University on April 21, 2018. This can encourage more submissions for EJP.

With best regards and wishes,

Prof Sultana N. Nahar

I have received the amount of
16225 Egyptian Pounds.

15/4/2018

Sultana Nahar
