SRINAGAR, 20 SEPTEMBER (**kns**): As part of the “Beyond Classroom Lecture Series of Physics”, Ohio State University USA Professor Sultana N. Nahar on Tuesday delivered his first lecture on “X-ray Spectroscopy for Biomedical Applications” at the National Institute of Technology (NIT) Srinagar.

The lecture was organized by PG, Department of Physics, NIT Srinagar in collaboration with Department of Chemistry and neighboring UG colleges to introduce students to X-ray spectroscopy for biomedical applications.

Inaugurating the lecture, Director NIT Srinagar Prof. (Dr.) Rakesh Sehgal said that it is a proud moment for NIT Srinagar to host eminent publishers on campus, also with whom we have a decade old relationship.

“The lecture was designed to expose our students and students from other colleges to ongoing research and career opportunities,” he said.

Pro. Sehgal appreciated the role of PG Physics Department and assured his support for such initiatives in future.

Registrar of the institute Prof. Syed Kaiser Bukhari said that this lecture series will benefit the students and help them to explore more options in the field of science and technology.

“Such lectures will go a long way in helping the students to develop their expertise and expertise in their respective fields. This will act as a great addition to our R&D programmes,” said Prof. Bukhari.

In his keynote address, Prof Sultana N. Nahar delivered his lecture on “X-ray Spectroscopy for Biomedical Applications”.

He added that this area of research has a direct relationship with medical applications such as cancer treatment.

Pro. Sultana also shared his inspiring academic and professional journey with the students and covered many aspects of spectroscopy and its applications in various branches of medical physics.

He said that there is no shortcut to success and one can achieve his goal only with hard work and dedication.

Pro. Sultana is also coordinating the US Mission India Public Diplomacy Grants Program. He did his Ph.D. Received a degree from Ohio State University, USA and discussed various Indo-US programs.

Head of Department of Physics Prof. M.A. Shah said that professionals and academics provide a unique opportunity to

Pro. The formal vote of thanks was presented by Seemin Rubab. He thanked the guest experts and all the participants for making the program a success.

Dr. Rubia (CUK), Dr. Qudsia (Women's College MA Road), Dr. Abdia (GDC) Anantnag), Smt. R. Faculty of many colleges and universities joined us including Sultana (School Education), Dr. Mehraj-ud. -Deen Shah (Women's College Pulwama), etc.

Finally, invited faculties from various colleges in the region were acknowledged for their efforts to come along with their respective students and attend the event.

The packed room had a question-and-answer session and a group discussion with the guest about various US initiatives for Indian students. (KNS)
