COMMENTS:

Thanks so much for the reprint of your July '95 ApJ paper with Pradhan. These results will be enormously useful to many astronomers as well as to Ed Fitzpatrick and me.

Any chance that you might include Si I and Mg I on your programs? We have started to observe lines of these atoms in our interstellar program, in addition to the various doubly and ~~triply~~ singly ionized species.

With best wishes to you and Dr. Pradhan,

Lynnon Spitzer, J.
