Coollege), Aligarh 22.03.2018**

B.Sc. Students attends National Symposium com Bioinformatics workshop,

March 20 - 21, 2018

I motivated the students to attend/participate (oral/poster) in workshops, internships, Life science fest (BIOSPARK), Training and placement cells (so that they are aware of opportunities available for them in the educational institutes and other sectors after graduation or for that matter pursue for higher education in the STEM fields. The mentor also participated in the events.

The students of B.Sc 2nd year (stem members) attended a National symposium cum Bioinformatics workshop on TRENDS IN GENOMICS: CONGRUENCE WITH CONTEMPORARY BIOTECHNOLOGICAL TOOLS at interdisciplinary biotechnology center AMU ALIGARH (20-21) March 2018. This forms the part of their course, hence will assist them in understanding of advanced concepts to pursue advanced studies and research in future.

The students of 4th and 6th semester also attended lectures at interdisciplinary Biotechnology Unit (AMU) during the National symposium cum workshop on "trends in Genomics: congruence with contemporary biotechnological Tools". the symposium was important as they have bioinformatics as one of course in their curriculum.
