Dr Sultana Nurun Nahar : More Alig Than Aligs

It is a blessing of Allah(SWT) when some one loves you.  
 And for every blessing it is mandatory to thank our Lord Most High.  
 Dr Sultana N. Nahar did not study at AMU.  
 But she came to the Physics Department of AMU-she is an astrophysicist.  
 She instituted two prizes for bright minority students of the Physics Department-one boy and one girl.  
 And why can we Aligs not be as sincere as this endearing guest?  
 She also gave about a dozen astronomy books of excellent production and academic quality to the Seminar Library of the same department - including one of her own books.  
 Thank you Dr Sultana-you are an inspiration.
