To Whom It May Concern:

Alburuj R. Rahman is a very intelligent young man who attends my Gifted / Talented sessions at Hamilton elementary on Monday afternoons.

He is showing talent in algebra, higher level thinking, and writing. He has passed **all** fourth grade proficiency tests with advanced scores in reading, writing, mathematics, and citizenship. Alburuj has received all As and Outstandings on his grade report this year. His behavior and respect for authority matches his academic record.

His guardians are very involved in his educational pursuits. I would highly recommend that Alburuj attend any alternative school of his choice, as he has a very good record of success and that is what we all want to nourish.

Sincerely,

Annette Brewer,
