

APPRECIATION LETTER

Dear Dr. Nahar,

It was my great honor welcoming you at Zewail City for Science and Technology on Oct. 31, 2016, where we successfully discussed our thoughts of venues for research collaboration between Ohio State University and Zewail City.

Moreover it would be a great opportunity for both institutions if we may form the initial set up for graduate students exchange between Zewail City and Ohio State University.

The students at Zewail City were very enthusiastic and impressed with your great lecture on Oct. 31, 2016, so I do really thank you for this wonderful lecture that inspired all ZC members.

Looking forward to welcoming you again in Zewail City.

Sincerely,
Salah

Professor Salah Obayya, DSc, FIEE, FInstP
Chair of Photonics and Director of Center for Photonics and Smart Materials
Vice Chair for Academic Affairs
Zewail City of Science and Technology
