Dr. Sultana N. Nahar

Department of Astronomy

140 W. 18th Ave
Columbus, OH 43210,
USA

Dear Dr. Nahar,

We are looking forward to OSU team visit in September with great interest and expecting to have successful programs with considerable progress in founding the Center of Excellence for STEM Education and Research.

We would also like to invite you for a seminar presentation on an astrophysical problem in your research area in the Physics Department during your visit. An exposure of current research interest will certainly benefit the students and faculty members as well as help us to relate AMU physics research to that of Ohio State University, relevant to the awarded USIEF STEM project. As September 16-17 are already booked with programs and meetings, it would be preferable to have the seminar on September 18.

I hope that you would accept our invitation.

With best regards,

Sincerely yours,

(Rahimullah Khan)

Chairman
Department of Physics
