

WOMEN IN STEM ROADSHOW

SURVEY SUMMARY REPORT: WORKSHOP #7

MINERVA GRAND, HYDERABAD

FEBRUARY 18 and 19, 2018

Local Expert: M. Nida Mir

The participants of workshop #7 were enthusiastic and had heard great things about Dr. Sultana Nahar and her achievements from WSR6 participants.

There were thirty-six participants comprising of college students, high school students, lecturers and teachers. Some of the participants came from families where participation in such workshops was not encouraged; rather discouraged. But the girls were determined to come and hear the international experts and be motivated.

The participants were impressed with the humble and modest nature of Dr. Nahar and to learn how approachable she was. They appreciated her light-hearted nature and modesty. Ayesha Unissa wrote, "It was an honor to meet such great personalities and to be influenced by them to achieve our career goals. I myself got inspiration regarding US studies, how to apply, how to manage time and how to write a resume,.."

Another participant, Shaik Noorain Fatema who is pursuing a degree in Computer and Software Engineering wrote, "It was very useful to build my confidence all through the way. It was a great experience to meet all the scientists over here. Thanks for giving this opportunity"

The alumni for this workshop was Vijaya Tirumulareddy and she too wrote, " I had not seen any such events before, it was organized well and coordinated with loads of information."
