Dear Professor Sultana Nurun Nahar,

I am delighted to extend my heartfelt congratulations and formalize your appointment as an Honorary Professor at The University of Jordan. This appointment honors your outstanding contributions to your field of Atomic Physics, Astrophysics and your dedication to advancing education and research.

Your valuable expertise will undoubtedly have a positive influence on the academic and research endeavors of both our faculty and students. We believe that your insights will greatly enrich the academic environment at our university and inspire both students and faculty members alike. In your role as an Honorary Professor, we hope to collaborate on various academic initiatives, including lectures, seminars, workshops, and collaborative research projects. Once again, congratulations on this well-deserved appointment.

We are excited about the potential of our partnership and the positive impact it will have on our institution. We are looking forward to your contributions and the positive impact you will bring to our university community.

Warm regards,

His Excellency Professor Dr. Nathir Obeidat

President of The University of Jordan
