

WAYNE STATE UNIVERSITY

COLLEGE OF LIBERAL ARTS

DETROIT, MICHIGAN 48202

DEPARTMENT OF PHYSICS

March 1, 1979

Ms. Sultana Nurun Nahar
6/3, S.B.C. Lane
Dacca-4 Bangladesh

Dear Ms. Nahar:

It is a pleasure to inform you that you have been approved for a Graduate Assistantship in the Department of Physics as follows:

Starting: September 12, 1979
Rank: Graduate Assistant II

For Period: Academic Year 1979-80
Stipend: \$4,400

In addition to the Graduate Assistant Stipend listed above you will receive a special first-year award from the Knoller Fellowship Fund of \$500 for the academic year and a guarantee of \$500 support for the 1980 Summer Quarter. The duties associated with this summer support will be either research with one of our groups or teaching. Which one of the two you are assigned to will depend upon the department's personnel requirements. You will also receive a tuition scholarship covering up to 12 credit hours of tuition for each quarter of your appointment. You will also be eligible for inclusion in the University's medical insurance programs at the current subsidized rates granted to the faculty.

This award of a Graduate Assistantship is contingent upon your good health, completion of your Master's degree, proof of your English competency, and your status as a regularly enrolled graduate student in good standing as determined by the Dean of the Graduate Studies at this University.

The regulations of the University require that Graduate Assistants elect not fewer than six hours of graduate credit nor more than twelve hours of credit in each quarter.

The teaching duties associated with this appointment consist of approximately eight contact hours of elementary laboratory sections or somewhat fewer contact hours of quiz (recitation) sections. As a full-time graduate student, you will be assigned office space in the Physics Research Building and will have 24-hour-a-day access to the building and to the Physics Reading Room.

If your graduate work and your teaching performance are satisfactory, this assistantship may be renewed in succeeding years, or you may choose to join one of the research groups as a Graduate Research Assistant. The details of the latter choice would depend, of course, upon a mutual interest between you and a research adviser.

Ms. Sultana Nurun Nahar

The University has recently completed the erection of new apartment buildings for graduate students and junior faculty on campus. (Brochures are enclosed.) If you are interested, I recommend that you contact the University Housing Office at a reasonably early date.

We hope you will find this offer attractive and we will anticipate your early response. If you wish to accept, please sign one copy of this offer below and return.

Sincerely yours,

Daniel R. Gustafson
Chairman
