April 8, 2022

Dear Dr. Nahar,

On behalf of the Fellow ships Office of the National Academies of Sciences, Engineering, and Medicine, I would like to thank you for the valuable service that you provided as a reviewer for the evaluation of applications at the February 2022 NRC Research Associateship Programs Panel Review.

Over 100 applications were reviewed in this first competition of 2022. Awardees selected through this process will become NRC Research Associates and will serve as guest investigators resident in one of our sponsoring federal laboratories. These awardees will conduct research on the projects that they proposed as part of their application. The success of the selection process is based on the dedicated voluntary service of distinguished individuals, such as yourself.

We hope that you enjoyed attending the virtual panel review, and we look forward to working with you during our online reviews in the spring, summer, and fall.

Sincerely yours,

Elizabeth Prescott
