

Course Evaluation: Cairo University, 2018

Dear Dr. Sultana,

it was a pleasure working with you through out the previous weeks. Though, I was never learnt about atomic physics, the course gave me a good insight and a quite familiarity with the whole thing. Thank you for your efforts with us! I enjoyed and I do wish to see you soon again. Hope you will always remember Egypt as a good place..
All the best in your life and career.

Sincerely,
Sherouk B. Shehata
