TO WHOM IT MAY CONCERN

This is to certify that **Prof. Dr. Sultana N. Nahar**, department of Astronomy, the Ohio State University, Columbus, OH 43210, USA came to the Chittagong University at her annual visit on 22 October, 2017. She delivered a seminar talk on the topic entitled "X-ray Spectroscopy for Cancer Treatment" on 23 October, 2017 at 13:30 pm in the department of Physics, University of Chittagong. About 150 teachers, researchers and students in total were present in the seminar. She also spent few hours with B. Sc. Honors and M. S. students.

I believe that the seminar talk delivered by **Dr. Nahar** is very important for our department because it can inspire us in many ways to carry our research with up-to-date information. I hope, she will continue her academic and research collaborations with the Physics department of the Chittagong University with her enriched knowledge.

(Dr. Mihir Kumar Roy)
Professor and Chairman
Department of Physic
University of Chittagong
Chittagong-433, Bangladesh
