Award

John Wheatley Award

To honor and recognize the dedication of physicists who have made contributions to the development of physics in countries of the third world. The award will consist of a stipend of \$2,000 and a certificate citing the contributions made by the recipient. The award will be presented biennially, every odd-numbered year, at the general meeting of the American Physical Society.

Establishment & Support

The award was established in 1991 with the support of [Forum on International Physics](#).

Rules & Eligibility

The award will be made to a physicist who, working in developing country has made an outstanding contribution to the development of physics in that region by working with local physicists in physics research or teaching. Nominations are open to physicists of all nationalities but the award will not be given to a person for work in his or her own country. Nominations are active for three consecutive reviews.

Nomination & Selection Process

Serving a diverse and inclusive community of physicists worldwide is a primary goal for APS. Nominations of qualified women, members of underrepresented minority groups, and scientists from outside the United States are especially encouraged.

This year's deadline has passed. Please check back soon for next year's nomination information and deadline.

2015 Selection Committee: Sergio Ulloa, Chair; Sultana Nahar; Ed Berger; Noemie Koller
