Dear Prof. Naqvi,

The joint Ohio State University and Aligarh Muslim University Center of Excellence for STEM Education and Research, supported by the US-India Educational Foundation under the Obama-Singh 21st Century Knowledge Initiative Award, is proud to co-sponsor the Aligarh Nano IV International Conference 2014. This is the first sponsorship undertaken by the Center since its founding in November 2013. It is fully consistent with, and within the purview of, the aims of the OSU-AMU STEM-ER Center, which include not only the training of the next generation of STEM faculty at higher education institutions in India, but also to foster world-class research through scientific and technological programs such as the nanotechnology program at AMU. On behalf of all participating members for the OSU administration and faculty, we congratulate you for organizing Aligarh Nano IV with national and international participation and wish you a very successful conference, as it undoubtedly shall be.

Anil K Pradhan, Director, USIEF OSUAMU STEM-ER Center

Sultana N. Nahar, Associate Director
