### Encourage more women to pursue STEM careers

Apply today to host a [Conference for Undergraduate Women in Physics](#) (CUWiP) at your institution! CUWiP offers a mix of presentations, workshops, poster sessions, tours, and social events that maximize networking and career development for undergraduate women in physics.

CUWiP increases recruitment and retention of undergraduate women in physics by:

- communicating the breadth of education and career paths open to physics majors
- disseminating information and advice on applying for summer research, graduate school, and professional employment
- providing opportunities to share experiences, advice, and ideas with women at different stages of their education or career paths

CUWiP 2025 will be held January 24-26, 2025 at multiple sites throughout the United States and Canada. Please review the application guidelines and submit an application to [women@aps.org](mailto:women@aps.org) by **Friday, November 3, 2023**.

In years past, APS has been able to support each host site with up to \$100 per student to partially cover local expenses, through our NSF and DOE grants. We understand that institutions may be in a time of financial uncertainty and encourage interested applicants to contact us at [women@aps.org](mailto:women@aps.org) with questions or concerns.
