Meet Our Esteemed Speaker " Prof. Sultana Nurun Nahar ".

We are deeply honored to announce Prof. Sultana Nurun Nahar, Fellow of APS, BPS, BAS, and TWAS-UNESCO, as one of our distinguished speakers at the 17th Abdul Jabbar Astronomy Workshop 2025.

A Research Professor at the Department of Astronomy, The Ohio State University, Prof. Nahar is globally renowned for her pioneering work in atomic astrophysics, spectroscopy, and computational astrophysics. She co-authored the acclaimed textbook "Atomic Astrophysics and Spectroscopy" (Cambridge University Press) and leads international collaborations through projects such as The Opacity Project and The IRON Project.

Her contributions extend beyond research. She is a passionate advocate for STEM education and women in science, serving as Co-Director of the Indo-US APJAK STEM Education and Research Center and Director of the Women in STEM Roadshow (U.S. Department of State).

We are privileged to have her share her wisdom and experience with our participants this year in Chattogram! **See less**
