Ref. Sultana N. Nahar and Alburuj R. Rahman Prizes for the faculty members and students in the Department of Physics of University of Jordan, Amman, Jordan

Dear Eng. Hadeel Tawalbeh,

Assalamu alaikum.

I have gone over the MOU form and filled it out. I signed the form since I am sponsoring the recognition program with my earned income. I have removed OSU logo from the MOU.

Ohio State University does not give fund to any institution unless it is a grant for a particular project with a condition. If starting with the recognition program, we initiate some collaborative projects, such as, with Prof. Ola Hassauneh of the Physics Department, we can certainly have Ohio State University and University of Jordan form a MOU or MOA between them.

Regarding the start of distribution of Physics and Astronomy prizes, it can start from this year 2024 if evaluation for the prizes can be done. Then I will include additional fund to cover the prize honorarium for 2024.

I look forward to working with University of Jordan.

With best regards,

Professor Sultana N. Nahar
Fellow of APS, BPS, BAS, TWAS-UNESCO
Co-Director, Indo-US APJAK STEM Education and Research Center of OSU and Aligarh Muslim University
Adjunct Professor, Cairo University, Egypt
Adjunct Professor (UGC-India scheme), Aligarh Muslim University, India, 2017-2022
