Dear MES Forum,

We are pleased to announce that [Sultana Nahar](#), Research Professor in the Department of Physics and MESC Affiliate, will be honored with two awards on Friday April 11. First is the [William Fowler award for Distinguished Research in Physics](#) and connection to the Eastern Great Lakes Region of the American Physical Society. Willie Fowler was an alumnus of OSU and shared the 1983 Nobel prize with Subrahmanyam Chandrasekhar for pp-nucleosynthesis as the source of energy in stars, and of course the foundational B2FH paper in cosmology. He was also the first recipient of this award. Past OSU recipients are Gary Steigman, Art Epstein, Bunny Clark, Clifford Heer and Narahari Rao. Sultana will receive this award at a ceremony at Wright-Patterson Airforce base.

The second award is the "Outstanding Student Organization Advisor Award". It is over 70-year old recognition program of Studentlife Leadership Program. The 2025 Leadership Awards will take place in-person at the Ohio Union Archie M. Griffin Grand Ballroom on Friday, April 11 from 5:00 p.m. - 6:30 p.m. Dress is formal.

These awards demonstrate Dr. Nahar's immense dedication to both research and serving students. Please join us in congratulating her on these impressive achievements!

The MESC Team
