

The Aligarh Muslim University, Aligarh, India

Department of Applied Physics
'ALIGARH NANO-IV International 2014'

International Conference on Nanoscience and Nanotechnology to be organized jointly at Aligarh
March 8-10, 2014

Ref. No. -----

Dated :17.01.2014

Dr. Sultana Nahar

Department of Astronomy, The Ohio State University
Columbus, OH 43210,USA

Dear **Dr. Nahar**,

The Centre of Excellence in Materials Science (Nanomaterials), Department of Applied Physics, Aligarh Muslim University, India is organizing an International Conference on Nanoscience and Nanotechnology "ALIGARH NANO-IV International 2014" during March 8-10, 2014 jointly with Ohio State University, USA and CEERI, Pilani, India. More than 50 invited talks will be delivered by eminent scientists in the field from India and abroad. Details of the conference are available at the website (www.aligarhnano.com). "Aligarh Nano-IV International 2014", the fourth conference in the series, aims to accelerate interdisciplinary research through the platform of nanotechnology. The conference will motivate the young researchers to develop their professional/research skills in nanoscience and nanotechnology. This will also provide an opportunity to interact with the senior scientists, exchange new ideas and seek pathways of mutual collaboration for tackling the problems in very important areas of energy, environment, agriculture and health, which are essential ingredients for the existence of mankind.

We hereby invite you to be guest of honour and deliver an invited talk in the conference

With kind regards,

Sincerely,

Prof. S. Alim Husain Naqvi
Convener

Principal Coordinator, Centre of Excellence in
Materials Science (Nanomaterials)
Department of Applied Physics
AMU, Aligarh, India
