Dr. Sultana N. Nahar
Research Scientist, Department of Astronomy
The Ohio State University
4055 McPherson Laboratory
140 West 8th Avenue
Columbus, OH 43210

Dear Dr. Nahar,

I am writing to recognize your efforts and research relating to the AMU-Ohio State University collaboration project STEM-ER. Such an initiative is one that helps solidify learning and research that can lead to a national reputation for innovation, a quality we prize very highly at the Ohio Technology Consortium (OH-TECH).

OH-TECH is comprised of five statewide member organizations: the Ohio Supercomputer Center, OARnet, OhioLINK, eStudent Services and the Research and Innovation Center. OH-TECH is the technology arm of the Ohio Board of Regents and is located in Columbus on the west campus of The Ohio State University. The mission of OH-TECH is to deliver "world-class technologies, information and expertise to provide Ohioans with a strong foundation for education and workforce, scientific research and business innovation."

If you would like to learn more about OH-TECH and how we might have an opportunity to collaborate, please contact Linda Flickinger, Policy and Grants Manager, by phone at (614) 292-6082 or by email at lflick@oh-tech.org.

I wish you the best in your future endeavors.

Warm regards,

Dwayne Sattler
Associate Vice President for Policy
Ohio Technology Consortium
Office of Research
The Ohio State University
