Report Suspicious

Dear Dr. Sultana N. Nahar,

Warm greetings from Dhaka.

I hope you are doing well. My name is Khadeza Sultana, a volunteer of the National Outreach Coordinator Bangladesh (NOC-BD) under the International Astronomical Union's Office for Astronomy Outreach. **On behalf of our National Outreach Coordinator, Mr. Farseem Mannan Mohammad, I am delighted to invite you to conduct an online session at the upcoming 18th Abdul Jabbar Astronomy Workshop 2026, scheduled to be held from 2-4 July 2026 at Level 12, Green City Center, 758 Satmasjid Road, Dhaka.**

This annual workshop is organized by NOC-BD in collaboration with the Bangladesh Astronomical Society (BAS) and associated with the Society for the Popularization of Science, Bangladesh (SPSB). The event is designed for enthusiastic students from Class 9 to undergraduate level, aiming to inspire curiosity and deeper interest in astronomy, astrophysics and space science through lectures, discussions and hands-on activities.

It would be a great honor for us to have you once again as a speaker at the Abdul Jabbar Astronomy Workshop. Your previous sessions were highly engaging, insightful and greatly appreciated by our participants. Many students were inspired by your ability to explain complex astrophysical concepts in an accessible and fascinating manner.

We are also deeply inspired by your outstanding contributions to astrophysics, particularly your research on atomic processes in astrophysical plasmas and their applications in understanding astronomical phenomena. We believe your experience and expertise would provide an invaluable learning opportunity for our participants.

We would be sincerely grateful if you could kindly conduct an online session at a time convenient for you during the workshop dates. You are most welcome to choose any topic of your preference; however, as the participants will mainly be students from Class 9 and above, an engaging and accessible session suitable for that level would be highly appreciated.

We will ensure full technical support and coordination to make the session smooth,

interactive and enjoyable for both you and the participants.

Thank you very much for considering our invitation. We sincerely hope you will be able to join us once again and inspire the next generation of astronomy enthusiasts.

Warm regards,

Khadeza Sultana

Volunteer, National Outreach Coordinator Bangladesh (NOC-BD)
