Report Suspicious

Dear friends and colleagues:

You are receiving this email because Charles Clark has personally determined that his Retirement Symposium titled ***From Atomic Structure to Bose Condensates: A 40-year NIST journey with Charles Clark*** would be more enjoyable if you were present. The event will take place in just one month, on Friday December 2<sup>nd</sup>, 2022, and will be held *in person* at the NIST Gaithersburg, MD campus. Charles plans to retire at the end of the calendar year.

The event will be a joyful celebration of Charles' significant contribution to the entire scientific enterprise. Serving as NIST Fellow, a NIST Division Chief for 20 years, a program manager at the Office of Naval Research of the United States Navy, and an NRC postdoc at the National Bureau of Standards, Charles has enriched our Nation and science at large. There will be scientific talks from previous students and past and present colleagues. The symposium will start at 1 pm and will end with a presentation from Charles himself at 5 pm. A lively wine and cheese reception is planned immediately following.

I will be acting as the Master of Ceremonies for this event, and I am hopeful that you will join me in wishing Charles well as he begins new adventures.

Look forward to seeing you December 2<sup>nd</sup>.

Best-  
Bill
