Report Suspicious

Dear prof. Sultana Nahar

On behalf of the Committee, all of us have the pleasure of cordially inviting you as an invited speaker
at our upcoming conference,

"4th International Conference on Basic and Applied Science (4th ICBAS 2025)

"Future Science: Efforts and Challenges"

17-18 November 2025

<https://icbas2025.conferences.ekb.eg/>

Hold in Al-Azhar Conference, Center (ACC), Nasr City, Cairo, Egypt

<http://www.azhar.eg/magmaa/acc>

The 4th ICBAS 2025 will be a great occasion for discussions of previous, present, and future research on different specialties, including "Physics & Biophysics, Nanotechnology & Materials Science, Chemistry, Biology, Nanomedicine, Biomedical Applications, renewable energies & energy Harvesting, Innovation in Science & Technology, Mathematics & Computer Science." Throughout the conference, each specialty has its separate session. It will provide an exciting scientific program that will cover all aspects, from the basics to their applications. It will be a great forum for oral, students, postdoctoral fellows, and established scientists from different countries to exchange ideas and broaden their knowledge. It will be an excellent opportunity to meet researchers from around the world, expand professional contacts, and create new opportunities, including the establishment of new collaborations.

Conference goals:

The 4th International Conference on Basic and Applied Science (ICBAS 2025) is an international scientific event that brings together researchers and thinkers from around the globe to discuss the latest advancements in basic and applied sciences. The conference addresses pressing scientific and societal challenges facing humanity, such as climate change, sustainability, modern technologies, and digital transformation, while highlighting the efforts being made to overcome these challenges through innovation and international research collaboration. Additionally, the forum offers a unique opportunity for knowledge exchange, encouraging young researchers and strengthening partnerships between academic institutions and industrial sectors, to build a future based on knowledge and

science.

Conference Basis:

- Basic sciences (Biology, Chemistry, Physics, Mathematics) and their future applications
- Green sciences and their applications
- Interdisciplinary sciences and knowledge integration
- Renewable and alternative energy, and environmental preservation
- Climate change and innovative scientific solutions
- Biotechnology and its applications in sustainable development and healthcare
- Artificial intelligence and cloud computing
- Cybersecurity and privacy challenges

Your research contributions and expertise would be a valuable addition to the scientific program. We would be honored by your presence and participation in this important event.

For further information and conference updates, please visit the conference website:
